### Additional information

#### Summary

An educational comic that retells elements from the Odyssey, focusing on the Cyclops. It begins with informational pages about The Greeks, the Gods and Myths (pp. 4–5), then provides maps for Setting the Scene (pp. 6–7), before retelling the myth in 7 short chapters:

- A Long Way from Home,
- A Promising Land,
- The Cyclops Comes Home,
- Outwitting the Cyclops,
- Blind Man's Bluff,
- Partin Shot,
- Poseidon's Revenge.

A Glossary and Index complete the book.

In The Greeks, Their Gods and Myths, a short explanation is provided about the nature of the gods, their relations with one another and with humans, and their purpose in providing a framework for understanding the world: "it was a world of chance and luck, of magic and superstition, in which the endless myths made sense of a dangerous and unpredictable life." (p. 4). A family tree is provided, showing the links between Theseus and the gods. Setting the Scene shows a map of Odysseus's journey through the Mediterranean.

A Long Way from Home sets the scene for the events of the Odyssey. It shows Odysseus eager to return home, with his men looting the island of Ismarus, then "wisely" sparing Maro, the priest of Apollo, and his family (p. 10). He fails to persuade his men to leave the island immediately, and while the men sleep, the people from Ismarus attack them, killing several of the men. En route from Ismarus, Zeus sends a storm to toss the boat about. They land on the island of the Lotus Eaters, where the men eat the fruit, but Odysseus drags them back to the boat. In A Promising Land, the boats are surrounded by fog, and they land on a beautiful island with many goats on it. The men kill some goats and eat them. While they are eating, they see smoke coming from a nearby cave, and investigate. Inside the cave, they find cheese, milk, and sheep in pens, and they wait, cooking some lamb. The owner of the cave, a Cyclops, returns. He is thinking "I'm so tired of eating nothing but goats and sheep." (p. 19). Odysseus says to his men, "Oh no... it's a Cyclops, they hate humans." (p. 19). The Cyclops, Polyphemus, closes off the cave using a huge slab of stone. Despite Odysseus explaining their predicament, Polyphemus grabs two of the

men and eats them. He sleeps, then for breakfast eats two more, before going out and closing the cave. Trapped, the men ponder what to do. They sharpen a tree trunk, and prepare a trap. In Outwitting the Cyclops, Odysseus tells Polyphemus his name is "Odeia"\*, meaning "nobody", and gets him drunk, then blinds the sleeping giant with the sharpened tree. When other nearby Cyclopes hear Polyphemus roaring, and ask him what has hurt him, Polyphemus cries "Odeia". "He's lost his mind. I'm going back to bed", say the other Cyclopes (p. 29). Polyphemus opens the cave, and in Blind Man's Bluff, the second part of the plan is put into action, the men carried out underneath the animals. Safely out, Odysseus unties the men. Zeus, looking on, mutters: "you have been lucky this time. There are still many other dangers I can put in your way." (p. 34). In Parting Shot, returning to the ship, they set sail, evading the rocks that Polyphemus hurls at them, and Odysseus lets Polyphemus know who has tricked him. In Poseidon's Revenge, Poseidon, angry that Odysseus has blinded his son, plots his revenge. A brief summary of key elements of Odysseus's adventures follows – fighting the cannibals on Corsica, encountering Circe, Scylla and Charybdis, and facing further storms. Eventually Odysseus alone returns to Ithaca, to find his son Telemachus grown and Penelope still waiting for him.

## Analysis

While the main focus of this brisk retelling of the *Odysseys* is on the encounter with Polyphemus, it covers the main elements of the story, using a comic-book format, with brightly coloured images in the comics-book hero style. Odysseus and his men are muscle-bound, wearing only short kilts. The emphasis on the gods' role in the story is interesting: shown through inset images of the gods commenting on the action, demonstrating their vengeful and meddling qualities, and the book's introduction highlights the power and influence of the gods. The cover of the book emphasizes the fearsome monstrosity of Cyclops (also musclebound), perhaps in an attempt to appeal to "reluctant readers", who are typically characterised as male, and interested in action. The combination of a comics-style graphic (musclebound heroes, semi-realistic visuals) with informational elements is unusual, and suggests that it is designed to appeal to "reluctant" readers

(usually thought of as boys).

Addenda

It is unclear who illustrated this book, or if the author was also the illustrator. TickTock Media closed down in 2010, following a litigation from the US, and its holdings were acquired by Octopus Books.

Nick Saunders (writer of Ancient Greek Myths: Medusa), is listed as a consultant on this retelling.
