Summary	When Rosa Alcantara and Alessandro Carnevare try to be intimate, they are transformed into mythical beasts, the moment they get too close to each other. The reason for this lies in the fact that they belong to different mafia clans, which have been adversaries for centuries. Therefore, their fate seems to be an eternal fight against each other. When they realize the problem, they stop trying to be intimate, Rosa moves to New York and after many years reconciles with her mother Gemma. Her mum escaped from Sicilia a long time ago fearing the mafia. Consequently, Rosa and Alessandro search for an ancient peace bringing statue, which would be able to unite the hostile clans of the Carnevares and Alcantaras; unfortunately, it seems that the statue sunk to the bottom of the sea. During this adventure, the fight against Lycaon, the dangerous werewolf of Arcadia, is renewed. He sends big dogs called "Hundingas" to attack Rosa and Alessandro. But the two teens manage to defeat Lycaon's henchmen. In the end Rosa is informed that she descends from the two mythical snakes, which fought against each other in Arcadia until the Olympian god Hermes saw them, brought peace to them and put them onto his caduceus, a wooden stick made of the olive-tree, as a symbol of peace.

the first book of Ovid's Metamorphoses serve to evoke a story with fantasy elements. The mythical animals: Lamias, panthers and werewolves function in a mafia-like context. The motif of the freedom bringing statue obviously refers to the statue of Athena Parthenope, which was made of ivory and gold. In this volume, the search for statue is the reason, why the teenagers Alessandro and Rosa travel through Italy. The ancient Greeks believed that this statue, at the Parthenon temple on the Acropolis of Athens, has the power to bring peace and freedom to humanity. The transformation of Rosa into a snake represents a super-human power inherited and wielded by the (demi)goddess: Rosa's ancestors where part of Hermes' famous caduceus. The love story of Alessandro and Rosa resembles that of Pyramus and Thisbe (in the fourth book of Ovid's Metamorphoses), or of Romeo and Juliet in Shakespeare's play. The story becomes more exciting, when the author reveals, how difficult it will be to find the statue. The hostility of their clans almost forces them to give up their love. The conflict drives the plot, preventing them to consummate their love. The narrative reveals a conservative perspective on a young couple who try to enjoy free sexuality. According to the ideology of that novel, such unsanctioned intimacy should be prevented. The motif of abstinence from physical love is not new; it is present in the international romantasy-bestseller Twilight (Meyer, 2005-2008) and also to the fantasy bestseller Starcrossed (Angelini, 2011-2013). The ideology in Arcadia Burns is based on the antiquated principle that men must always use violence to solve their problems. The "Hundingas", who follow and threaten Rosa and Alessandro are reminiscent of Cerberus, the huge watchdog, who guards the underworld and seeks for souls, who try to escape from this sad place.
