Additional information

Summary	This is a graphic novel retelling of the myth of Hercules from his youth to after the labours. It includes glossary, index and further reading. There are only 4 panels devoted to Hercules' youth and then we are told that as a grown man Hercules was told by the oracle of Delphi (which was manipulated by Hera) to serve King Eurystheus. Unsurprisingly, there is no mention of the murders he committed, this being a children's story. All the 12 labours are then portrayed and we also meet people Hercules helps along the way. Hera keeps intervening, even causing a fight between Hercules and the Amazons. The book ends with the note that (45) "all his life Hercules never stopped making dangerous journeys and fighting against fearsome enemies, but those are stories for another time" as if to leave the young readers curious about more of Hercules' tales.
Analysis	According to the back of the book, the author relied on Thomas Bulfinch's *The Age of Fable* and on Hamilton's *Mythology*. The illustrator, it is stated, was influenced by classical Greek art. Towards the end, Hercules contemplates (33): "again I am a thief for Eurystheus. I like it less every time." This is a rare glimpse into Hercules' psyche, since his character is elsewhere not developed. He is more of the stereotypical muscle man. No definite reason is given for the labours since the murder of Hercules' family by his own hand is missing. Therefore the labours could be seen as a pretext to exhibit Hercules' muscles and super human strength as he is fighting different rivals.
